Planning For Tomorrow

This is what other residents are saying...what do you think?

What do you like most about living in the parish?

- *Rural ambiance; small town character*
- *The people and the topography, the land is incredibly beautiful - It has "inward peace"*
- *Unique environment; country of hills and hollows*
- *Sense of community*

What do you like the least?

- *Lack of affordable housing opportunities*
- *Don't like way the parish is growing - way it is growing is not well organized.*
- *A lot of the places are not accessible for walking by elderly; not enough connections from one place to another*

What are your biggest hopes for the parish planning process?

- *That we will provide affordable housing in the parish so people stay here and not move out of the parish.*
- *Job opportunities for people in the parish.*
- *That we are able to develop a plan that encourages development in the proper way – while maintaining character of parish*
- *That the people who live in the parish, new and old, who have the same ideas come together and work together to get this plan done. Hope all will come to the table so we can all be heard.*
- *That it will provide protection for our natural beauty and get a cohesive plan that is across the board fair to all*

What will make this plan most successful?

- *Involving the people; having good public input, support and buy in.*
- *If this plan is a success, has to address the needs of all the people in the parish*
- *Coming together and working as one community of people*
- *Clear vision. Clear guidance on getting to that vision.*
